Subject: RE: 401 Certification Status Update- Columbia River Hyrdopower Dams

Hi Allison, thanks for your email. We are still working on internal review of the permits, and at this point, do not have an update on when we will be requesting 401 certification. I'd be happy to let you know when we do have a timeline and/or request 401 certification. At this point, we are not releasing the draft permits that had originally been submitted for 401 request, since we are doing internal review of those permits.

Please feel free to let me know if you have further questions.

Subject: 401 Certification Status Update- Columbia River Hyrdopower Dams

Hello,

I was wondering if I could get a copy of the documents for the draft permits submitted for the Nine Federal Dams on the Columbia and Snake Rivers. Additionally, I wanted to see if there was an update on when those might be submitted for 401 Certification again. Thanks for your time.
